Corps Lakes Gateway

Your gateway to fun at Corps Lakes!

The Corps Lakes Gateway

“Your gateway to fun at Corps Lakes!”

Carters Lake and Dam
Photo: Adrien Lamarre

The Corps Lakes Gateway is scheduled to be released in 2004. This portion of the site provides

consistent recreation information for Corps lakes and rivers that provide public rec-

reation opportunities.

It supports the federal initiative www.Recreation.gov by providing details to the recreation area level.

Corps Lakes Gateway

One stop information source for

- Location of Corps Lakes
- Recreation facilities and activities
- Marina facilities
- Access to on-line reservations
- State and Local Contacts
- Local Communities
- Local Partnerships

The Natural Resources Management (NRM) Gateway

“Information the way managers manage”

The NRM Gateway is designed for Corps of Engineers NRM staff. Providing the one place to go to for tools and resources for the NRM practitioner. It also provides connections for Corps of Engineers Communities of Practice in the areas of:

Recreation, Environmental Compliance, Environmental Stewardship, & Partnerships.

One stop information source for:

- Policies, Practices and Procedures
- Partner information
- Best practices—” Good Enough to Share”
- Subject Matter Experts
- “Gateway to Go” exportable products
- Access to R&D resources

Environmental Stewardship Content Development Workshop Photo: Kathleen Perales

Lake Discovery

“A pool of knowledge to learn, adapt, improve...”

Lake Discovery is currently under development. It is a place where rangers and managers regardless of agency affiliation, can go to get best practices, and other detailed information on a variety of environmental and recreation topics contributed by agency and university professionals.

Connections for Environmental & Recreation professions

- Knowledge base for managing recreation and natural resources
- Tracking emerging trends
- Web cast presentations through the Learning Exchange
