

Good Morning, All,

Reference my Email to you, dated 4 December, requesting nominations of projects with certain characteristics for a possible FY 05 budget initiative.

Thank you for all your efforts in developing and providing nominations on such short notice. The nominations were very impressive in showing the innovative and effective approaches being employed at these projects.

The following projects have been selected to participate in the proposed recreation initiative, if it is approved and implemented. Additional details are not available yet, but we will share as soon as we can. One possible misconception in your nominations seemed to be the potential availability of new funding. At this point, there is no proposal for new or additional funding to support this initiative.

Lake Shelbyville, Illinois - MVD
Rathbun Lake, Iowa - NWD
W. Kerr Scott Dam and Reservoir, North Carolina - SAD
Wolf Creek Dam Lake Cumberland, Kentucky - LRD
Texoma Lake, Texas - SWD
Beaver Lake, Arkansas - SWD

Once again, thank you for your participation. I apologize for the lack of additional details, but wanted to let you know ASAP which projects were selected.

Judy Rice
