| FOR: <input type="checkbox"/> INFORMATION | <input checked="" type="checkbox"/> DECISION | <input type="checkbox"/> READ-AHEAD |
| <input type="checkbox"/> APPROVAL | | <input type="checkbox"/> SIGNATURE |
| <p>1. PURPOSE: To obtain approval of the Chief of Engineers for the public release of Corps Lakes Gateway (www.CorpsLakes.us) and to integrate the Corps Lakes Gateway into the USACE homepage and other relevant CE websites, including the E-Corps portal.</p> <p>2. BOTTOM LINE: The Corps Lakes Gateway provides easy public access to comprehensive information about the outdoor recreation opportunities the Corps provides and is consistent with administration initiatives such as the e-government and Healthier US (www.healthierus.gov).</p> <p>3. DISCUSSION: The Corps Lakes Gateway is a website that visitors can use for trip planning purposes by providing consistent, detailed information on recreation opportunities associated with Corps water resource development projects. The site provides links to information on Corps concessionaires, other Corps partners and adjacent communities, and fully integrates recreation content in CE district and project websites. The site also supports Recreation.gov (the primary federal recreation website) by providing more detailed information about recreation opportunities on Corps projects.</p> <p>- The website is maintained by the Engineer Research and Development Center (ERDC) as part of the Natural Resource Management Gateway. Funding is provided through the Recreation Management Support Program (RMSP).</p> <p>- The Corps Lakes Gateway was developed under the oversight of the Recreation Leadership Advisory Team (RLAT), which manages the RMSP, and has been coordinated informally with HQ Information Management, Public Affairs, and Real Estate (regarding concessionaire information). External coordination has been limited to Department of Interior staff responsible for Recreation.Gov.</p> | | |
| RELEASER: CARL A. STROCK, MG, DIRECTOR OF CIVIL WORKS | | |
| RECOMMENDATION: That the CG approve the public release of the Corps Lakes Gateway and its integration into the USACE homepage and other relevant CE websites, including the E-Corps portal. | | |
