Summary:

Initially, overview and background information on the Natural Resource Management (NRM) Gateway Initiative were presented to workshop attendees. Debra Stokes presented the Headquarters perspective on Partnerships. John Breiling presented an overview of legal issues associated with Partnerships. The purpose of the Workshop was to build content for the Partnership section of the Gateway. After the initial overview, Team Members broke into work groups and began developing individual pages. Progress presentations were made to the whole group for constructive criticism and ideas. Once pages are complete, Team Members will send them to Ginny Dickerson for posting to a test page, where they will be reviewed by the group. Cori Brown volunteered to be the Content Subject Matter Expert for the Gateway Partnership Web Pages.
