

WROS Interagency Training **(Water Recreation Opportunity Spectrum)**

Sponsor: Federal Lakes Recreation Leadership Council

Host: U.S. Army Corps of Engineers, Lake Texoma

Training Site: Lake Texoma on the border of Oklahoma and Texas
(www.laketexoma.com)

Training Objectives:

- To develop a working knowledge of the WROS system as an inventory, planning, and management tool for water recreation
- To apply WROS to Lake Texoma and to the water resource at the participant's home unit
- To provide expert opinion for the refinement of the WROS guidelines and standards.

WROS Overview: please see the attached WROS Executive Summary

Training Format: Thursday and Saturday morning will be in-class involving a mix of lecture, group discussion, and small work groups. Friday will be on a boat applying the WROS inventory protocol to Lake Texoma.

Target Audience: Mid-level and senior water recreation managers and planners from local, state, or federal resource agencies.

When: The session begins with an orientation session at 7:30 pm on December 10th and concludes at noon on December 13th. Participants will be expected to participate in the entire training session.

Where: Tanglewood Resort at Lake Texoma
(www.tanglewoodresort.com)

Registration Fees: None.

Food, Lodging, and Travel Costs: Participants are expected to cover these costs.

Lodging Arrangements: Contact the Tanglewood Resort at 1-800-833-6569 or at reservations@tanglewoodresort.com A block of hotels rooms with either a king size or 2 double beds are reserved until November 10th at a government rate of \$55 per single occupancy per night. Indicate the name of the training when making your reservations. You will need to use a government credit card to receive the government rate.

Air flight Connections: Lake Texoma and the Tanglewood Resort are located approximately one hour north of the Dallas/Ft. Worth Airport.

Course Instructors: Feel free to contact the course instructors if you have questions--
