

Pavement Stencils

Looking for another way to emphasize PFD use? New England District has designed an excellent water safety message for use at paved boat launches that is relatively inexpensive! The template is made from 1/4" PVC plastic and measures 47" wide by 56.2" high. There is even a 3-color version available. Other Information: For details contact the New England District Sign Shop at <http://www.nae.usace.army.mil/signshop/>.
